Field Events Report

That the changes to the field regulations regarding re-casting and the diversion for the WCI be approved as submitted by Katie Dugger, and that the WCI rule #19 regarding talking to your dog be changed to "The handler may not touch the dog once he has signaled the judge he is ready. Failure may result from excessive noise at the line by the retriever or the handler."

AND, that the WCX rule #20 regarding talking to your dog be changed to "The handler may not touch the dog once he has signaled the judge he is ready. Failure may result from excessive noise at the line by the retriever or the handler. The handler of the honoring dog may speak quietly to the honoring dog provided the handler does not interfere with other handlers, the working dog, or the Judges." **MOTION APPROVED**

APPROVE: Julie Hanson, Susan Wright, Eric Johnson, Jane Young, Patty Beran, Cindy Richardson, Dominique Jolley, Janice Johnson, Dee Nichols, Melissa Savage

The approved revisions are as follows:

Re-casting (BRT/WC/WCI/WCX)

BRT & WC #23:

#23 "A dog may be recast (sent to retrieve more than once) from the line on marks, but **only** in cases of confusion described as follows: when a dog makes a start toward a marked fall, but stops within a short distance of the line (the distance is usually limited to 15 feet, and should be agreed upon between the Judges) and returns or is recalled to the handler. The dog is then sent to retrieve again. This is most often attributed to confusion on the part of the dog as to whether it was sent to retrieve the first time. It is **not** considered a recast when a dog goes to the area of the fall, fails to find the bird and returns (or is recalled) to the handler. This shall be evaluated as a lack of perseverance and grounds for failure.

"In marked retrieves, if a dog, after having been sent to retrieve, (1) returns to its handler before finding the bird, with or without having been called in, (except in those cases of confusion of the dog as to whether it was really ordered to retrieve); (2) stops its hunt; or (3) fails to pick the bird up, actually leaving it after finding it, it shall be sufficient cause, unless there exist in the opinion of the Judges valid mitigating circumstances, to fail the dog.

WCI #23 & WCX #24:

"A dog may be recast (sent to retrieve more than once) from the line on marks, but **only** in cases of confusion described as follows: when a dog makes a start toward a marked fall, but stops within a short distance of the line (the distance is usually limited to 15 feet, and should be agreed upon between the Judges) and returns or is recalled to the handler. Note* There is no allowance for confusion on blind retrieves. If you attempt to handle your dog on a mark, no re-casting is allowed.

Talking to your dog at the line

WCI #19:

19. "The handler may not touch the dog once he has signaled the judge he is ready. Failure may result from excessive noise at the line by the retriever or the handler."

WCX #20:

20. "The handler may not touch the dog once he has signaled the judge he is ready. Failure may result from excessive noise at the line by the retriever or the handler. The handler of the honoring dog may speak quietly to the honoring dog provided the handler does not interfere with other handlers, the working dog, or the Judges."

Diversion for the WCI

(Judges/Handles Guidelines)

"A diversion will be thrown as the dog is returning with the second bird. The diversion should not be thrown in the dog's path. A switch to the diversion bird is an immediate failure. This is **NOT** a marking test, therefore a dog may be handled to the diversion bird if mis-marked, but the dog must retrieve all birds."

That the following change be made to the field regulations, in the section on catalogs/running order/judge's sheets and that this change and the previous ones proposed take effect on April 1, 2004:

Currently reads:

"A running list or catalog will be available for all participants on the day of the test. The list must include the dog's registered name and number, the owner's name, the handler's name and the order in which the dogs are to be run."

Add the sentence at the end of the paragraph: "Only NSDTRC (USA) and AKC titles may be listed with the dog's name." **MOTION APPROVED**

APPROVE: Julie Hanson, Susan Wright, Eric Johnson, Jane Young, Patty Beran, Cindy Richardson, Dominique Jolley, Janice Johnson, Dee Nichols, Melissa Savage

Copies of the Rules & Regulations for NSDTRC (USA) Field Tests, revised as of April 1, 2004, may be requested from Katie Dugger, Field Events Chair.
